

## ***IMPORTANT INFORMATION***

**FOR IBM PC, PCjr., TANDY, AND MS-DOS USERS**

### ***USING THE GAME DISK***

---

Before using the program for the first time, you can follow the instructions listed here to install 2.0 or 2.1 versions of DOS on your game disk. Once the appropriate DOS is installed, your game disk will load automatically. It should be noted that DOS versions 3.0 or higher cannot be installed on the game disk. However, they can be used to load the program each time you use the game disk (instructions provided here).

The accompanying User's Guide explains the program's six learning activities and which keys to use to complete each activity. You may notice that the IBM version of this program contains certain color differences from those described in the Guide.

### ***INSTALLING DOS USING 2 DISK DRIVES***

---

- STEP 1.** Place our DOS disk in drive A. Use IBM DOS\* 2.0, 2.1 (2.1 with an IBM PCjr.), or MS-DOS† 2.1 series.
- 2.** Turn on the monitor and computer. The screen asks for the date and time.
- 3.** At the "A" prompt, insert the game disk in drive A. Type **INSTALL** and press **ENTER**.
- 4.** Read the screen instructions. Next, insert the DOS disk in drive B.
- 5.** Press any key to begin the installation procedure. When the installation procedure is successfully completed, the screen prompts "System transferred" and "1 File(s) copied."

\* IBM DOS is the trademark of International Business Machines Corp.

† MS-DOS is the trademark of MICROSOFT CORP.

## INSTALLING DOS USING 1 DISK DRIVE

- STEP 1.** Place the DOS disk in drive A. Use IBM DOS 2.0, 2.1 (2.1 with an IBM PCjr.), or MS-DOS 2.1 series.
- 2.** Turn on the monitor and computer. The screen asks for the date and time.
- 3.** At the "A" prompt, insert the game disk in drive A. Then type **INSTALL** and press **ENTER**.
- 4.** Read the screen instructions explaining how you must alternate the DOS and game disks in the disk drive to complete the installation procedure. (**Remember:** Use the game disk when prompted to insert the disk for drive A. Use the DOS disk when prompted to insert the disk for drive B.)
- 5.** With the game disk in the drive, press any key to begin the installation procedure.
- 6.** Follow screen instructions. When the procedure is successfully completed, the screen prompts "System transferred" and "1 File(s) copied."

## USING DOS TO LOAD THE PROGRAM

DOS versions 3.0 or higher cannot be installed on the game disk. However, you can follow these simple steps to use DOS to load the program each time you play the game.

- STEP 1.** Place the DOS disk in drive A and turn on the computer and monitor.
- 2.** At the "A" prompt, insert the game disk.
- 3.** Type **AUTOEXEC** and press **ENTER**. The program will load.
